

Product Supplier	Craster
Product Name	Flow Oak Heating Unit
Codes	BU_FH2101, BU_FH2102, BU_FH2103, BU_FH2104, BU_FH2105
COO	United Kingdom
Material	Dekton, Lacquered Oak, Electrical components
Finish	Lacquered
Product End Use	Food Presentation - DO NOT place food directly on to the surface of this product.
Declaration of Compliance	This product meets the requirements of BS EN 60335-1:2012+A2:2019 Safety of household and similar electrical appliances.
Revision Date	06/01/2020

### Power

Available with a choice of region plug type.

UK, EU and AUS Models Voltage: 230 V ~50 Hz

US Models Voltage: 110 V ~60 Hz

Amperage: 4.55/2.17 A

Wattage: 500 W

Number that can be daisy chained together: Three units

Variable Temperature: from 20°C to 140°C

Time needed to warm up / cool down: Approximately 30 minutes

Daisy chaining heating units is possible. We recommend a limit of 5 units using a single power source, but please refer to your electrical engineering contact to discuss grid limitations.

### Cleaning & Maintenance

Disconnect from Mains before cleaning.

- Clean Oak sides using non-scouring sponge with a small amount of detergent and water.
- Please make sure water is kept away from electrics. If water is to enter the unit please make sure unit is completely dry before being plugged back in.
- Remove detergent with a damp rag.
- Wipe down with a cloth and allow to air dry.

### Caution

DO NOT place food directly on to the surface of this product.

DO NOT use in the dishwasher.

DO NOT use abrasive cleaning products or cloths as the material will scratch.
