

# Elliptical Shaker Waste Paper Bin

cra'ster

WWW.CRASTER.COM

These beautifully hand-made bins refer to the Shaker tradition that developed from the mid-19th century in New York. The 2mm aero-ply used is incredibly versatile and durable (in fact so much so that airplanes were once made of this material). The bins are cut by hand then bent on a mold and nailed with tiny copper nails. Available in both straight and swallow tail styles.

Craster is the leading manufacturer of hardwood serving products for the hotel industry in the UK. Our products have been developed to survive for years in industrial hotel and restaurant environments. All Craster products are made from hand picked solid hardwoods and finished in best-of-breed Italian lacquers that are both moisture and heat (including cigarette burn) resistant. Our trays should not be placed in dishwashers, but simply wiped clean.
